

CLASSIC CRETE TP

Single Component Coloured Water Resistant Tile Joint Grout Filler

Product:

A factory blended, easy to use, polymer modified non-shrink cementitious tile joint grout. Designed for cost effective filling of tile joints with greater adhesion to the surface of contacts. **Classic Crete TA** is a high quality coloured water resistant tile joint adhesive grout for permanent filling.

Description:

Unlike Ordinary white cement, **Classic Crete TP** does not change in colour in course of time even in wet condition areas. Colours available to match all shades and types of tiles, ceramic, natural stones, resin bonded marble and swimming pool tiling.

Advantages:

- Non-shrink tile grout
- Excellent waterproofing properties
- Ready to use & non-toxic
- High tensile strength
- Polymer modified for greater adhesion

Pack & Coverage:

Available in 1 kg pack. 1 kg will cover approx. 10 Sq.mt area of 1ft x 1ft tiles joint by 5 mm width and depth.

Instruction for Use:

Application:

Mix 3 to 3.5 parts of **Classic TP** into 1 part of potable water by volume and mix into a smooth creamy consistency. Allow the paste to stand for 10 to 15 minutes before use.

Remix or stir up the paste once again and apply into the joints diagonally with spatula or putty blade. Remix the excess paste with clean moist sponge or soft cloth before drying totally. Joint grouting may be commenced 24 hrs, after tiles have been laid.

Storage Life:

Classic Crete TP has a minimum shelf life of 6 months if stored in a dry enclosed area in unopened bags.
